

Ironer

Cylinder cold press ironer KM752

MAIN FEATURES

- High pressure, 560 kg/cm²
- Triple aluminum rollers for stability
- Unique lift and release function
- Automatic stop in case of overload
- Finger protection and emergency stop
- Transparent protective cover
- Easy to operate
- Durable iron sheet
- Energy-efficient, no heat needed
- Worm gear unit with direct connection from motor to shaft
- Resettable motor protection

User-friendly
design 

Two-year
limited warranty

Main data	Imperial	Metric		
Product no.		151110		
Type		Cold press ironer		
Roller width	in	20.55	mm	522
Roller diameter	in	0.23	mm	6
Roller speed	V/in	356	V/mm	14
Maximum roller pressure	psi*	7,964.88	kg/cm ² *	560
Length of ironing cloth	in	98.4	mm	2500

* The average pressure inside the ironing cloth is 150 kg/cm² or 2,133.45 psi.

Technical specifications cold press ironer KM752
