

Smart laundry cart with large capacity and tough construction

This ergonomic laundry cart is designed to streamline operations and reduce strain on staff and users. With smooth-rolling wheels, sturdy construction, and corner protectors that prevent scratches, it ensures effortless handling of large loads in laundromats and other commercial settings.

The basket has an innovative design that lets the cart slide easily under the door of a base-mounted front-loading machine, keeping clean laundry off the floor. Transferring clothes from washer to dryer has never been easier.

ASSEMBLE IN UNDER ONE MINUTE

Its self-supporting structure is delivered flat-packed and can be easily assembled in under a minute without tools or loose screws. The cart combines practicality with style, featuring a sleek black design and a sturdy chrome steel stand.

1. Unpack the parts

2. Unfold the cart

3. Insert the base, one side first, then rotate it down

4. Attach the handle and push in the snap locks on both sides

5. Ready to use!
