

Drying cabinet TS43 E

1. Hang the laundry

Distribute the laundry evenly on the hangers. Do not hang the laundry too closely together, as this will extend the drying time. Do not open the door during the drying process.

2. Start the cabinet

Press the ON/OFF button.

3. Select a program

Choose an **automatic program** by pressing the AUTO button. Scroll to the desired program by pressing the button once or several times.

Optional setting for AUTO HIGH and AUTO LOW programs.

Option available only for the AUTO HIGH program.

To choose a manual program, press the MAN button. Press repeatedly to scroll through the programs.

The preset drying time can be increased or decreased using the button.

4. Start the program

Press the Start/Stop button to start or stop the drying cabinet. When the LED is steadily lit, the drying process is active.
